

BLOCK 72

Large, compact space of the ruler is ideal for promotional print

Wooden folding ruler, type Block 72

- 10 wooden parts - 2 m, with dimension of 3.2 mm × 16 mm
- material: beech wood / hornbeam
- hidden polyamide joints, visible rivet

① **Type of joint** - hidden joints are made of polyamide and fiberglass. The steel rivet is visible.

② **Surface treatment of wooden parts** - double-layered water-soluble paint. UV environmentally friendly coating of the top layer protects the ruler from the effect of thinner.

③ **Compact space of the ruler** - the whole surface of the ruler, consisting of 10 parts, can be used for promotional purposes. The adjacent wooden parts form a compact surface for the smooth print.

④ **Straight wooden parts** - the smooth wooden parts without grinding enable straight lines to be drawn easily.
